We promise to find you the very best Medicare Plan for your needs

We will help you find the very best research-based, perfect-for-your situation Medicare Plan out there

If you are confused, fed up, or both, you're not alone. The number of companies clamoring for your attention has never been greater.

In Spokane County there are 26 Medicare Advantage plans and 24 Prescription Drug plans to choose from for 2016. Add to that 10 standardized Medigap Supplement plans offered by 22 companies, and the choices become overwhelming for most.

Breathe a little easier: finding your best plan is what we do.

The good news is that All Medicare Solutions represents 21 of those 26 plans plus most of the prescription drug plans and Medigap Supplement companies. That means we can help find the very best plan for your circumstance. (We can even enroll you in one of the few plans we don't represent if that's your choice.)

Cut through the clutter. We'll do the homework without charge.

Tired of trying to figure out which company to see and how to make sense of their plans? Allow us to do the research for you—everything from cost and coverage to customized drug plans that minimize or eliminate the dreaded 'donut hole.'

Here are all the hopeful details:

- **Save time.** Enjoy freedom from attending seminars, multiple appointments with company agents, or doing your own research.
- **Receive unbiased recommendations.** As free agents, our allegiance is to you, not a specific company or plan.
- **Save money.** Our detailed profiles on every company and every plan mean we will find you the best plan for the least money.
- **Know upfront which doctors and hospitals accept the plans you are considering.**
- **Expect to be our priority.** Every one of our agents specializes in Medicare with rigorous training and personal study.
- **Gain a champion for life.** We provide assistance if problems arise with the company you have chosen.
- **Benefit from our passion.** We exist to serve you wholeheartedly. Saving you money, time, and hassle gives us joy. If that sounds too good to be true, it will be our pleasure to convince you.

Here today. Here tomorrow.

Up to date. On the job year 'round.

If awards were given for confusing the American public, Medicare would get the prize. Every year, changes are made to the plans allowed by the government, and every year, companies providing those plans make even more changes of their own.

Consider: even if your health and prescriptions stay the same, company changes to your plan can impact premiums, co-pays, and coverage amounts. On the other hand, if you add—or drop—just one prescription from your drug list, the change to coverage and cost can be surprising.

That is why we also review your situation and coverage every October to make sure you still have the best plan. The results are available to you without charge along with our recommendation for your best options point-in-time.

Questions about your chosen plan? Don't hesitate to call.

We want you to feel confident about your plan and welcome hearing from you. If you have to leave a message, we will call you back within four hours or the very next morning.
